This is a variance from the provisions of: (refer to the specific section in the Kalispell Zoning Ordinance. For example, a variance from the required side yard setback in an R-4 zoning district would include: Section 27.07.040(3)):

Specifically identify the variance that is being requested, and state the reasons that the variance is needed
(please be as specific and complete as possible):

Before any variance can be granted, the Board of Adjustment shall make findings of fact based upon evidence produced at a public hearing setting forth and showing that the following circumstances exist. Please address how each of these have been met (attach separate sheet w/ answers):

- A. In considering all proposed variances to this ordinance, the board shall, before making any findings in a specified case, first determine that the proposed variance will not amount to a change in the use of the property to a use which is not permitted within the district;
- B. That special conditions and circumstances exist which are peculiar to the land such as size, shape, topography or location, not applicable to other lands in the same district and that literal interpretation of the provision of this ordinance would deprive the property owner of rights commonly enjoyed by other properties similarly situated in the same district under the terms of this ordinance;
- C. That the special conditions and circumstances do not result from the actions of the applicant;
- D. That granting the variance requested will not confer a special privilege to subject property that is denied other lands in the same district;
- E. That granting the variance will not be materially detrimental to the public welfare or injurious to the property or improvements in the vicinity and zone in which subject property is situated;
- F. The Board of Adjustment shall further make a finding that the reasons set forth in the application justify the granting of the variance and that the variance is the minimum variance that will make possible the reasonable use of the land;
- G. The Board of Adjustment shall further make a finding that the granting of the variance will be in harmony with the general purpose and intent of this ordinance and will not be injurious to the neighborhood or otherwise detrimental to the public welfare;
- H. The fact that property may be utilized more profitably will not be the sole element of consideration before the Board of Adjustment.
